

Unform Your Bias™

Purpose Statement: Unform Your Bias™ exists to provide tools to overcome bias and collectively reduce the amount of it in the world.

Our mission is to teach people of all ages how to uncover, understand, unpack and unform their biases.

Community Outreach

For Adults

Unform Your Bias™ provides curriculum and trained facilitators to support Collaboration Circles. Joining is an opportunity to participate in a diverse group with differing viewpoints and learn how to solve problems, together. When you join a Collaboration Circle, you will experience a series of 7-8 life-changing meetings to learn ways to put aside judgment, accept differences, and build better solutions, together. Flood the world around you with intentional dignity and respect.

Education

For Children

Unform Your Bias™ engages Educators and Learning Specialists to provide curriculum that teaches skills for inclusion, kindness, peaceful conflict resolution and effective influence. Teaching these skills early in a child's life intercepts bias before it begins to form. Teaching older children how to work together to solve problems can change tomorrow. Children will gain exposure to different cultures, viewpoints, and diverse experiences while learning the value of differences. What better way to shape the future?

When we reduce our “bias footprint” we can increase hope, human dignity, and respect while decreasing prejudice, bullying, and hatred.

We are on a mission to teach the world to include...

Volunteer : Teach . Design . Participate

Donate : Time . Money . Resources
