

# Unform Your Bias™

**Purpose Statement:** Unform Your Bias™ exists to provide tools to overcome bias and collectively reduce the amount of it in the world.

## BECOME A CIRCLE FACILITATOR

### What is a Circle Facilitator?

Unform Your Bias™ is seeking Circle Facilitators to recruit and facilitate Collaboration Circles. During the first 4 meetings, the Circle Facilitator will guide the group in uncovering, unpacking, and unforming their own biases. At the end of the fourth meeting, the group will choose a Community Challenge to tackle together. The last 4 meetings will be spent in collaborative solution planning about the Community Challenge.

### Circle Facilitator Training

Unform Your Bias™ will provide training resources for the Circle Facilitator. Each Circle Facilitator will receive a Facilitators Guide that outlines activities and discussion points for each Collaboration Circle. An on-line forum is in place to support Facilitators

Types of circles include: Civic Leaders; Civic Groups; Churches; College Students/Faculty

### Collaboration Circles

The purpose of a Collaboration Circle is to provide people the opportunity to collaborate with diverse viewpoints, backgrounds, life experiences, and cultures while also learning to solve problems together despite each other's differences. The goal is not to change the views of participants, but to provide a deeper understanding of all sides to expand their views. Members of a Collaboration Circle will complete a 10 minute online survey and meet at least 8 times, every other week.

*The range of topics for solutions may include, but are not limited to:*

Environment, Community Programs, Faith-Based Integration, and Local or Regional Infrastructure.

### Sign Up

Contact [maggie@getedges.com](mailto:maggie@getedges.com) to sign up as a Circle Facilitator.

**We are on a mission to teach the world to include**
